

Twist—Window Cleaning Robo

Correct and constant removal of dust, which cause the dispersion of pollution, ensures the cleanliness of your home and the healthiness of the air we breathe.

Twist window cleaner robo

practical and cutting-edge tools capable of raising the level of indoor well-being from every point of view, especially the overall comfort.

What we do is designed to improve your daily life.

The robotic cleaner employs the use of sensors in guiding its movement around sharp edges and tight corners, and also prevent the robotic cleaner from falling or hitting bumps on its cleaning path.

Another good thing about the robot cleaner is its compatibility with Android and iOS devices. All you have to do is download the proprietary app online, install it, and then you will have unhinged access to various features that enable you to choose the cleaning option you prefer.

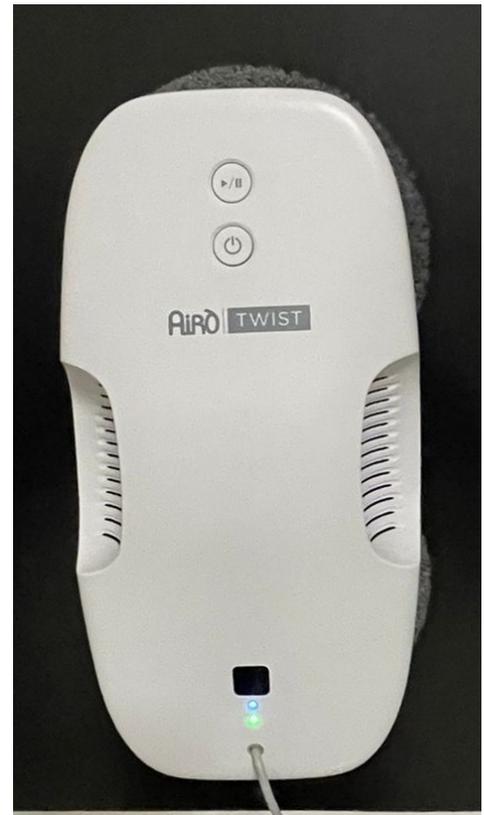

Window cleaning robots have a number of benefits over traditional window cleaning methods. First, they are completely autonomous and do not require any input from the user. Second, they are able to clean windows in a fraction of the time that it would take a human to do the same job. Third, they are able to clean windows that are inaccessible to humans, such as those on high-rise buildings. Finally, they are able to clean windows without the use of any chemicals, which is safer for both the environment and the user.

TECHNICAL DATA

Power Supply	Volt	AC 100-240V DC 24-3,75A
Voltage	Watts	90
Suction	Pa	2.400
Battery Capacity (Li-iOn)	mAh	650
Charging Time	h	2.5
Autonomy Without Power Supply	Min	20
Safety Rope Ca- pacity	Kg	80
Gravity Loading	Kg	7
Weight	Kg	1.14
Use Temperature	°C	0-40
Remote Control		YES
Automatic Cleaning Schedule		YES
Intelligence obsta- cle detection AI		YES

Window cleaning robo's are slowly but surely becoming the go-to choice for window cleaning, and for good reason. They are efficient, safe, and environmentally friendly, and they provide a level of convenience that is hard to beat. If you are looking for a way to clean your windows quickly and safely, then a Twist window cleaning robo is the way to go.
